

Ronald Wayne Duran

WEB DEVELOPER

asartalo@gmail.com | +639165678287

I'm a 35-year-old, self-taught web developer and designer. I want to build awesome and delightful things my (future) grandkids can be proud of.

Skills

- § Writes well-tested, object-oriented code
- § Refactors for maintainability
- § Creates user-friendly, interfaces
- § Writes standards-compliant, semantically-sound HTML
- § Translates graphic mockups and comps into HTML and CSS
- § Enhances HTML pages with Javascript
- § Prototypes and iterates
- § Can code in Ruby, Go, Javascript and PHP
- § Comfortable working on the command line
- § Can read dissertations and RFCs without getting nauseous

Tools

Code: Vim, Git, bash
Design: Photoshop, Illustrator, InDesign
Frameworks: Ruby on Rails, Angular
Platform: Mac OS X, Linux

Experience

2005 - 2012

Senior Designer

GoAbroad Philippines, Inc.

2012 - 2013

Web Developer

RCG Global Services

2013 - Present

Web Developer

SourcePad Inc.

Work

GoAbroad.com 2010 Redesign

<http://www.goabroad.com/>

An online directory for meaningful travel. The site hosts over 27,000 listings including study, volunteer, internships, jobs. Currently ranked as #1 site in the study abroad industry.

Role: Lead Designer

GoAbroad Network

<http://www.goabroad.net/>

An online travel community where travelers can share their travel experiences through journals, photos, maps and other applications.

Role: Lead Designer

GoAbroad HQ

<http://www.goabroadhq.com>

A web-based database system for managing study, volunteer, or intern abroad participants. GoAbroad HQ is a CRM for study abroad providers and will directly compete with SoFront in the study abroad, volunteer abroad field.

Role: Designer

Next24

<https://next24.io/>

A task management and delegation app that focuses on daily tasks. Works well with teams that do daily scrums.

Role: Developer

Personal Projects

Pondo

<https://github.com/asartalo/pondo>

An experiment in building a web application that feels like a single page app but should still work without javascript. Heavily inspired by turbolinks.

Built with: Ruby on Rails

Spogoto

<https://github.com/asartalo/spogoto>

An attempt to make a stack-based programming language with gotos inspired by the Push 3.0 programming language, and its go implementation.

Built with: Go

Other Projects on Github

<https://github.com/asartalo>
